

Ankit Singh

Senior Software Developer

WORK EXPERIENCE

Grapes Group (Real Estate, Mobility & Digital Platforms) – Delhi, India Senior Software Engineer | 06/2024 - present

Driving digital transformation initiatives across real estate, mobility, gaming coordination, DevOps, and internal tooling with end-to-end ownership.

- Acted as the primary technical liaison between internal stakeholders and external game development partner Abhiwan for the Safari Rummy project, ensuring delivery alignment, sprint coordination, and release governance.
- Designed and implemented CI/CD pipelines and environment workflows, owning DevOps strategy across development and deployment lifecycles.
- Architected and developed Grapes Cab, a ride-hailing platform (Uber/Ola-like) using MERN stack and React Native, covering driver apps, user apps, and backend services.
- Led social media performance marketing initiatives, managing Meta Ads campaigns for hiring and property sales, generating high-quality leads that were successfully qualified and converted by sales teams.
- Delivered and maintained multiple corporate websites, including:

- Grapes Cab
- Grapes Real Estate
- FNO Developers

- Conceptualized and developed an internal accounting and bookkeeping system using Electron.js, enabling real-time tracking of company expenses, revenues, and financial reporting.
- Ensured scalability, security, and operational efficiency across platforms by enforcing best practices in architecture, deployment, and monitoring.

Mscorpres Automation, Noida, India Senior Software Developer | 08/2023 - 02/2024

Developed ERP using MERN Technology and React Native.

- Led the design and development of various software solutions including Human Resource Management System (HRMS), Finance Module, Inventory Management, Legal Module, Production Module, Job Work Module, Work Order Module and Android applications for inventory stock updates.
- Utilized MERN (MongoDB, Express.js, React, Node.js) technology stack to architect scalable and efficient backend and frontend components.
- Spearheaded the entire software development lifecycle from requirement analysis and system design to coding, testing, deployment, and ongoing maintenance.
- Collaborated closely with cross-functional teams, including UI/UX designers, product managers, and quality assurance engineers, to ensure seamless integration of features and functionalities.
- Developed responsive and user-friendly interfaces using React and React Native, providing an optimal user experience across web and mobile platforms.
- Designed and implemented complex data models, databases, and API endpoints for efficient data management and retrieval.
- Contributed to the continuous improvement of development processes and methodologies, fostering a culture of innovation and excellence.

SKILLS

Front End Development

- HTML
- CSS
- JS
- Typescript
- ReactJS
- React Native
- Bootstrap
- Prime React
- Redux Toolkit
- antd

Back End Development

- NodeJS
- Express

Database

- MongoDB
- SQL

Data Engineering

- ETL
- Data Pipelines
- Data Ingestion
- Data Transformation

DevOps

- CICD
- Jenkins
- GitLab
- Pipeline Automation
- Build Automation
- Deployment Automation
- Release Management

Operating Systems

- Windows
- Linux
- MacOS

Security Tools

- Nmap
- Burp Suite
- Wireshark
- Ettercap
- GNS
- SEToolkit

WORK EXPERIENCE

AstuteLook, Noida, India

CTO | 08/2019 - 07/2023

Developed Management Software, HRM, CRM, E-Commerce Websites, and Android Applications using MERN Technology and React Native.

- Led the design and development of various software solutions including Human Resource Management (HRM) systems, Customer Relationship Management (CRM) platforms, E-Commerce websites, and Android applications.
- Utilized MERN (MongoDB, Express.js, React, Node.js) technology stack to architect scalable and efficient backend and frontend components.
- Spearheaded the entire software development lifecycle from requirement analysis and system design to coding, testing, deployment, and ongoing maintenance.
- Collaborated closely with cross-functional teams, including UI/UX designers, product managers, and quality assurance engineers, to ensure seamless integration of features and functionalities.
- Developed responsive and user-friendly interfaces using React and React Native, providing an optimal user experience across web and mobile platforms.
- Designed and implemented complex data models, databases, and API endpoints for efficient data management and retrieval.
- Integrated third-party APIs and services to enhance system capabilities, such as payment gateways, social media integrations, and geolocation services.
- Implemented robust security measures to safeguard sensitive data and ensure compliance with industry standards.

Reliance Jio Infocomm Limited, Ghaziabad, India

Network Operations Center (NOC) Associate | 10/2016 - 04/2018

- Managed a proficient team of riggers and technical staff in the Network Operations Center (NOC).
- Oversaw and coordinated the team's activities to ensure effective network operations and timely incident resolution.
- Led the response to network outages, quickly diagnosing issues and implementing strategies to minimize downtime.
- Collaborated with cross-functional teams including engineers, technicians, and vendors to resolve complex network issues.
- Monitored network performance, utilizing monitoring tools and analytics to proactively identify potential issues.
- Maintained communication with senior management, providing updates on network status, outage resolutions, and preventive measures.
- Analyzed outage data to identify patterns and recommend improvements to prevent future occurrences.

Kissmat International Publication, Delhi, India

Web Developer and Analyst Intern | 11/2014 - 07/2016

- Conducted comprehensive analysis of website traffic, user behavior, and engagement metrics to provide actionable insights for optimizing user experience.
- Identified areas of improvement on the website by analyzing user journey data, leading to targeted enhancements for user satisfaction and conversion optimization.
- Monitored and reported on website performance across different devices and platforms, highlighting potential usability issues and ensuring a consistent experience.
